someone once told me "if you stress too much about something before it happens, you basically put yourself through it twice." And I feel like someone needed to hear that too, be happy

New DACA Policy Bans Nursing Student From Taking The NCLEX

Image of Nursing: Ayda

- In 2012, Deferred Action for Childhood Arrivals (DACA) was created by the Obama Administration to allow young people brought to the US illegally by their parents the permission to work, go to school, and get a driver's license.
- Rosa, 24, has been able to attend University of Arkansas for nursing thanks to DACA
- She is expected to graduate in December 2019 but Trump administration tried to stop DACA in September 2017 and there have been several lawsuits against the termination
- Since there is still uncertainty, the Arkansas State Board of Nursing has banned any DACA recipients from sitting to take the NCLEX
- NEXT STEPS: Oklahoma, California, Washington, New York
